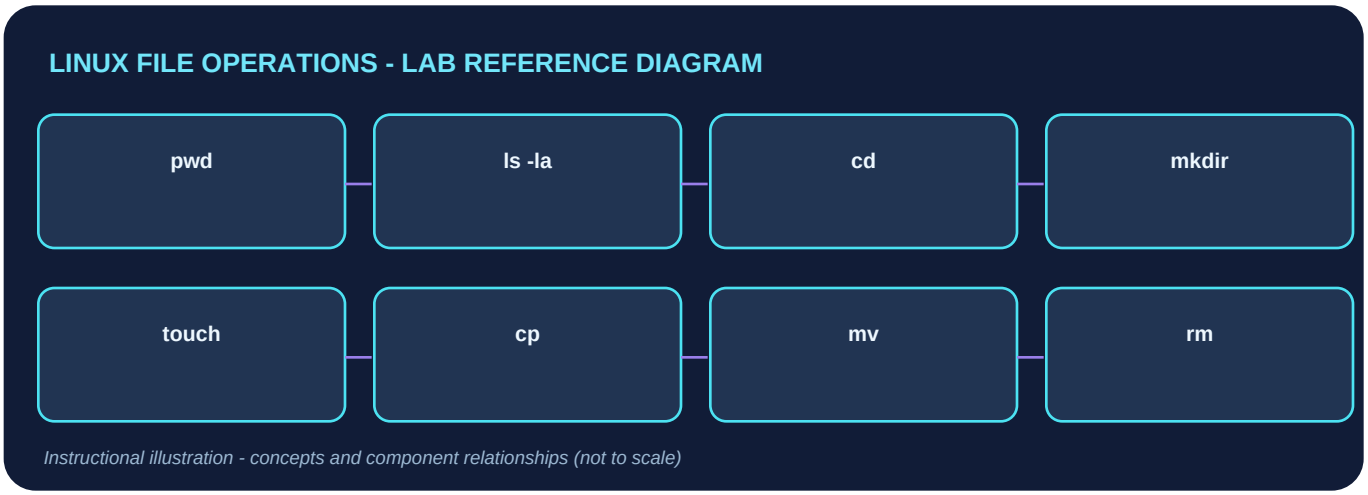
17.1.7 Linux File Management

STUDENT STUDY GUIDE + VOCABULARY + VISUAL REFERENCE

Learning goal

Navigate, create, copy, move and remove files.

Reference image



Use the labeled illustration to identify the key components, commands, or checkpoints you will encounter in this lab.

Prepare for the simulation

1. Inspect current path with pwd and ls -la.
2. Create a practice folder and file with mkdir/touch.
3. Copy and move test files between directories.
4. Use find and remove only authorized test data.

Troubleshooting and safe practice

• Permission denied: inspect owner and mode first.

• Missing file: confirm path, case and current directory.

17.1.7 | VOCABULARY & REVIEW

Essential vocabulary

Term	Meaning / recognition cue
pwd	Print working directory in a Linux shell.
ls -la	List files with details, including hidden entries.
cd	A key term in linux file operations; identify its purpose, where it is used, and how to verify it.
mkdir	A key term in linux file operations; identify its purpose, where it is used, and how to verify it.
touch	A key term in linux file operations; identify its purpose, where it is used, and how to verify it.
cp	A key term in linux file operations; identify its purpose, where it is used, and how to verify it.
mv	A key term in linux file operations; identify its purpose, where it is used, and how to verify it.
rm	A key term in linux file operations; identify its purpose, where it is used, and how to verify it.
find	A key term in linux file operations; identify its purpose, where it is used, and how to verify it.

Knowledge check - answer in your own words

1. Identify two components or commands in the reference diagram and explain what each does.

2. What should you verify before changing or installing hardware, settings, or files in this lab?

3. Choose one listed failure symptom. What is your first safe diagnostic step?

4. How will you prove the task is complete, rather than merely assuming success?

Lab readiness checklist

[ ] I can identify the labeled reference items. [ ] I understand the safety precautions.

[ ] I can explain the vocabulary. [ ] I can verify and document successful results.
