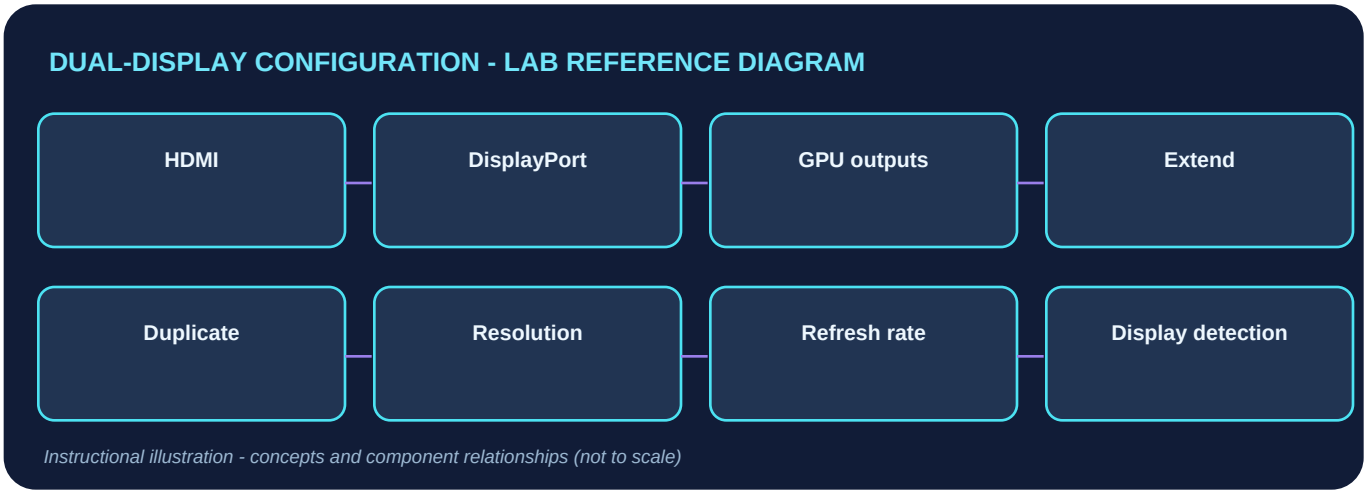
2.3.2 Configure Dual Monitors

STUDENT STUDY GUIDE + VOCABULARY + VISUAL REFERENCE

Learning goal

Connect HDMI/DisplayPort and configure displays.

Reference image



Use the labeled illustration to identify the key components, commands, or checkpoints you will encounter in this lab.

Prepare for the simulation

1. Connect both displays to supported outputs.
2. Choose Extend or Duplicate in display settings.
3. Arrange displays to match their physical positions.
4. Set appropriate native resolution and refresh rates.

Troubleshooting and safe practice

• Second screen absent: use Detect and check cable/input.

• Incorrect arrangement: drag display positions in settings.

2.3.2 | VOCABULARY & REVIEW

Essential vocabulary

Term	Meaning / recognition cue
HDMI	Digital connection carrying video and often audio.
DisplayPort	Digital display interface common on computers and monitors.
GPU outputs	A key term in dual-display configuration; identify its purpose, where it is used, and how to verify it.
Extend	A key term in dual-display configuration; identify its purpose, where it is used, and how to verify it.
Duplicate	A key term in dual-display configuration; identify its purpose, where it is used, and how to verify it.
Resolution	A key term in dual-display configuration; identify its purpose, where it is used, and how to verify it.
Refresh rate	A key term in dual-display configuration; identify its purpose, where it is used, and how to verify it.
Display detection	Signal connection or output; verify the correct interface, source and operational status.

Knowledge check - answer in your own words

1. Identify two components or commands in the reference diagram and explain what each does.

2. What should you verify before changing or installing hardware, settings, or files in this lab?

3. Choose one listed failure symptom. What is your first safe diagnostic step?

4. How will you prove the task is complete, rather than merely assuming success?

Lab readiness checklist

[ ] I can identify the labeled reference items. [ ] I understand the safety precautions.

[ ] I can explain the vocabulary. [ ] I can verify and document successful results.
