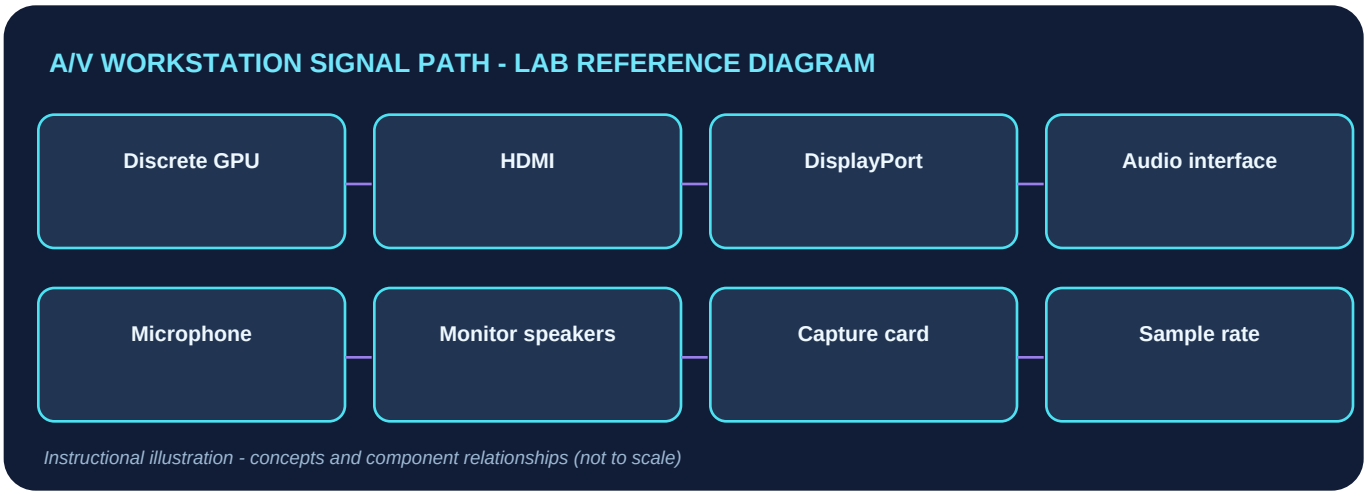
2.4 Set Up an A/V Workstation

STUDENT STUDY GUIDE + VOCABULARY + VISUAL REFERENCE

Learning goal

Configure an audio/video workstation.

Reference image



Use the labeled illustration to identify the key components, commands, or checkpoints you will encounter in this lab.

Prepare for the simulation

1. Identify display, audio and capture requirements.
2. Select appropriate ports and connect peripherals.
3. Configure default audio input and output.
4. Verify display resolution, recording and playback.

Troubleshooting and safe practice

• No audio: check output selection, mute and driver.

• No video capture: check source resolution and cabling.

2.4 | VOCABULARY & REVIEW

Essential vocabulary

Term	Meaning / recognition cue
Discrete GPU	A key term in a/v workstation signal path; identify its purpose, where it is used, and how to verify it.
HDMI	Digital connection carrying video and often audio.
DisplayPort	Digital display interface common on computers and monitors.
Audio interface	A key term in a/v workstation signal path; identify its purpose, where it is used, and how to verify it.
Microphone	A key term in a/v workstation signal path; identify its purpose, where it is used, and how to verify it.
Monitor speakers	Signal connection or output; verify the correct interface, source and operational status.
Capture card	A key term in a/v workstation signal path; identify its purpose, where it is used, and how to verify it.
Sample rate	A key term in a/v workstation signal path; identify its purpose, where it is used, and how to verify it.

Knowledge check - answer in your own words

1. Identify two components or commands in the reference diagram and explain what each does.

2. What should you verify before changing or installing hardware, settings, or files in this lab?

3. Choose one listed failure symptom. What is your first safe diagnostic step?

4. How will you prove the task is complete, rather than merely assuming success?

Lab readiness checklist

[ ] I can identify the labeled reference items. [ ] I understand the safety precautions.

[ ] I can explain the vocabulary. [ ] I can verify and document successful results.
