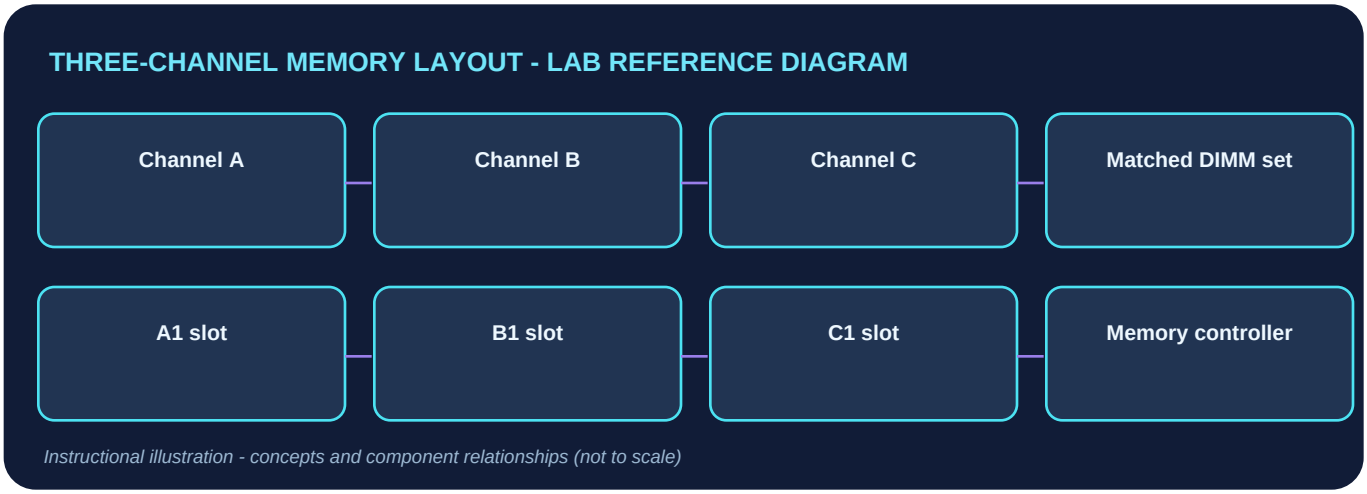
3.3.7 Install Triple Channel Memory

STUDENT STUDY GUIDE + VOCABULARY + VISUAL REFERENCE

Learning goal

Match and populate memory channels.

Reference image



Use the labeled illustration to identify the key components, commands, or checkpoints you will encounter in this lab.

Prepare for the simulation

1. Find the motherboard population diagram.
2. Choose three compatible matched DIMMs.
3. Install one DIMM in the designated slot per channel.
4. Check POST and reported channel configuration.

Troubleshooting and safe practice

• Wrong slots: consult the manual and rearrange DIMMs.

• POST failure: power down and reseat each DIMM.

3.3.7 | VOCABULARY & REVIEW

Essential vocabulary

Term	Meaning / recognition cue
Channel A	Memory characteristic or configuration item; check motherboard support and installation requirements.
Channel B	Memory characteristic or configuration item; check motherboard support and installation requirements.
Channel C	Memory characteristic or configuration item; check motherboard support and installation requirements.
Matched DIMM set	A key term in three-channel memory layout; identify its purpose, where it is used, and how to verify it.
A1 slot	Physical interface or connection point; verify its intended function and compatibility before use.
B1 slot	Physical interface or connection point; verify its intended function and compatibility before use.
C1 slot	Physical interface or connection point; verify its intended function and compatibility before use.
Memory controller	Memory characteristic or configuration item; check motherboard support and installation requirements.

Knowledge check - answer in your own words

1. Identify two components or commands in the reference diagram and explain what each does.

2. What should you verify before changing or installing hardware, settings, or files in this lab?

3. Choose one listed failure symptom. What is your first safe diagnostic step?

4. How will you prove the task is complete, rather than merely assuming success?

Lab readiness checklist

[ ] I can identify the labeled reference items. [ ] I understand the safety precautions.

[ ] I can explain the vocabulary. [ ] I can verify and document successful results.
