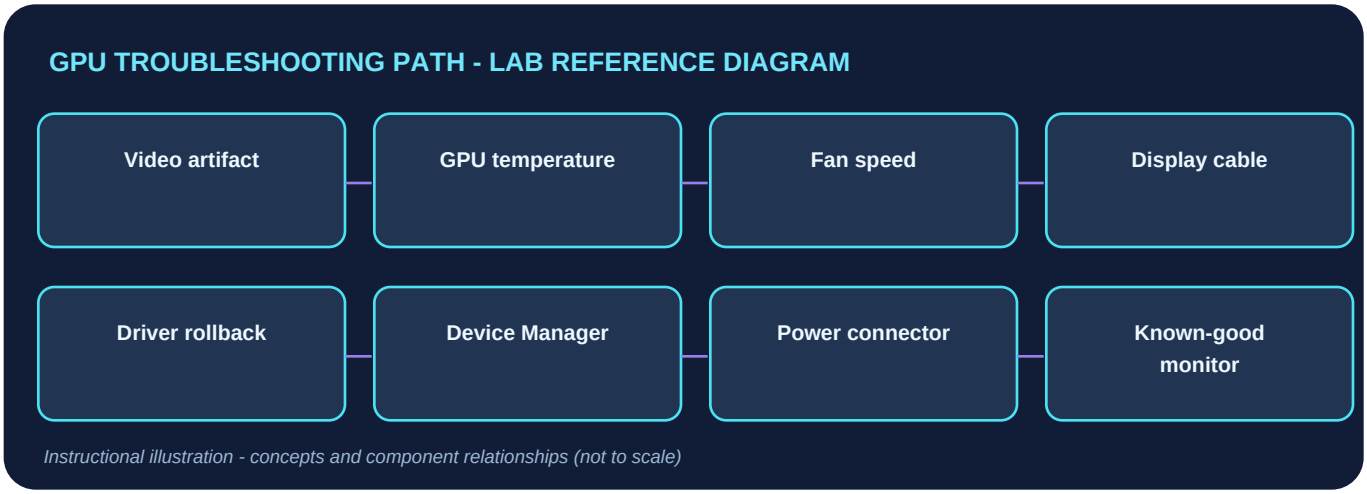
4.3.9 Troubleshoot GPU

STUDENT STUDY GUIDE + VOCABULARY + VISUAL REFERENCE

Learning goal

Diagnose video and graphics faults.

Reference image



Use the labeled illustration to identify the key components, commands, or checkpoints you will encounter in this lab.

Prepare for the simulation

1. Describe the symptom and reproduce it safely.
2. Test cable, monitor and correct output first.
3. Inspect temperatures, fans and GPU power.
4. Update or roll back driver and retest.

Troubleshooting and safe practice

• Artifacts under load: investigate thermals and GPU health.

• No display: test known-good monitor/cable first.

4.3.9 | VOCABULARY & REVIEW

Essential vocabulary

Term	Meaning / recognition cue
Video artifact	Signal connection or output; verify the correct interface, source and operational status.
GPU temperature	A key term in gpu troubleshooting path; identify its purpose, where it is used, and how to verify it.
Fan speed	A key term in gpu troubleshooting path; identify its purpose, where it is used, and how to verify it.
Display cable	Signal connection or output; verify the correct interface, source and operational status.
Driver rollback	Storage device or management concept; confirm detection and preserve existing data.
Device Manager	Windows interface for inspecting devices and drivers.
Power connector	Physical interface or connection point; verify its intended function and compatibility before use.
Known-good monitor	Signal connection or output; verify the correct interface, source and operational status.

Knowledge check - answer in your own words

1. Identify two components or commands in the reference diagram and explain what each does.

2. What should you verify before changing or installing hardware, settings, or files in this lab?

3. Choose one listed failure symptom. What is your first safe diagnostic step?

4. How will you prove the task is complete, rather than merely assuming success?

Lab readiness checklist

[ ] I can identify the labeled reference items. [ ] I understand the safety precautions.

[ ] I can explain the vocabulary. [ ] I can verify and document successful results.
